GENERAL KNOWLEDGE / PLAINDECK DEMO

Generative AI

A Practical Mental Model

It predicts useful patterns. Humans decide what belongs in the world.

A FIVE-SLIDE PRIMER

CREATED WITH PLAINDECK CLI • SOURCE IS ONE JSON FILE PER SLIDE

**A model does not retrieve a finished answer.
It builds the next token from patterns.**

Prompt + context → probabilities → one generated continuation

Good results come from a repeatable loop

01

FRAME
Set the job

02

GENERATE
Explore options

03

REVIEW
Verify + refine

CONTEXT IN • CANDIDATES OUT • JUDGMENT THROUGHOUT

DRAFT
Turn intent into a first form

TRANSFORM
Summarize, translate, restructure

EXPLORE
Compare possibilities quickly

03 / WHERE IT HELPS

One engine, three practical modes

The model produces candidates. Your workflow supplies context, constraints, feedback, and a stopping rule.

3x

draft • transform • explore

**Use AI for breadth.
Keep judgment for truth, taste, and
consequences.**

Frame the task · verify the output · own the decision
