GENERAL KNOWLEDGE / PLAINDECK DEMO

Generative AI
A Practical Mental Model

It predicts useful patterns. Humans decide what belongs in the world.

A FIVE-SLIDE PRIMER

CREATED WITH PLAINDECK CLI · SOURCE IS ONE JSON FILE PER SLIDE

01

A model does not retrieve a finished answer.
It builds the next token from patterns.

Prompt + context → probabilities → one generated continuation

Good results come from a repeatable loop

01

FRAME
Set the job

02

GENERATE
Explore options

03

REVIEW
Verify + refine

CONTEXT IN • CANDIDATES OUT • JUDGMENT THROUGHOUT

03 / WHERE IT HELPS

One engine, three practical modes

DRAFT
Turn intent into a first form

TRANSFORM
Summarize, translate, restructure

EXPLORE
Compare possibilities quickly

The model produces candidates. Your workflow supplies context, constraints, feedback, and a stopping rule.

3×

draft · transform · explore

Use AI for breadth.
Keep judgment for truth, taste, and consequences.

Frame the task · verify the output · own the decision
